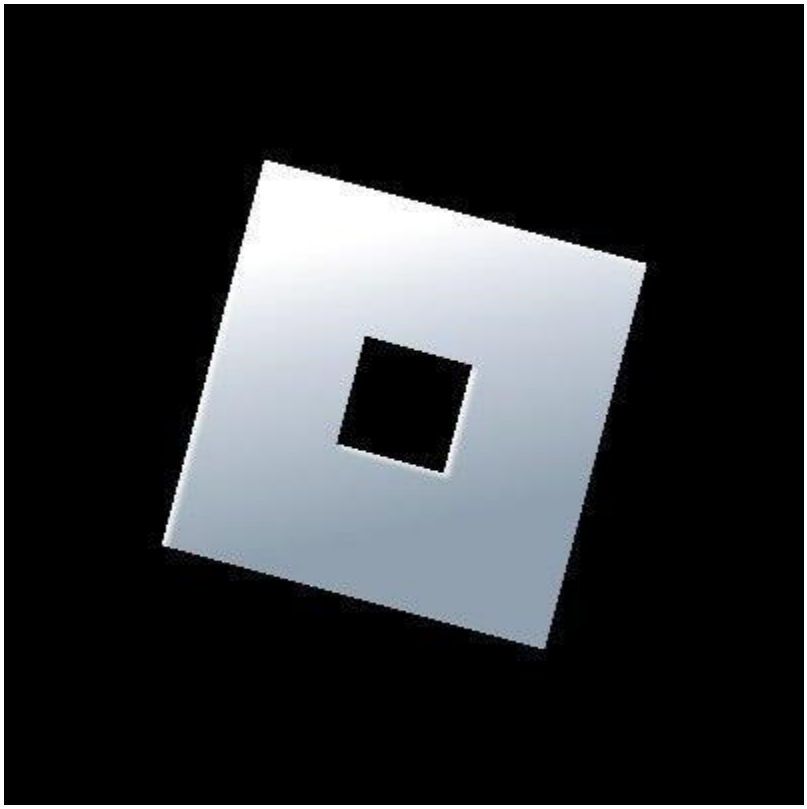
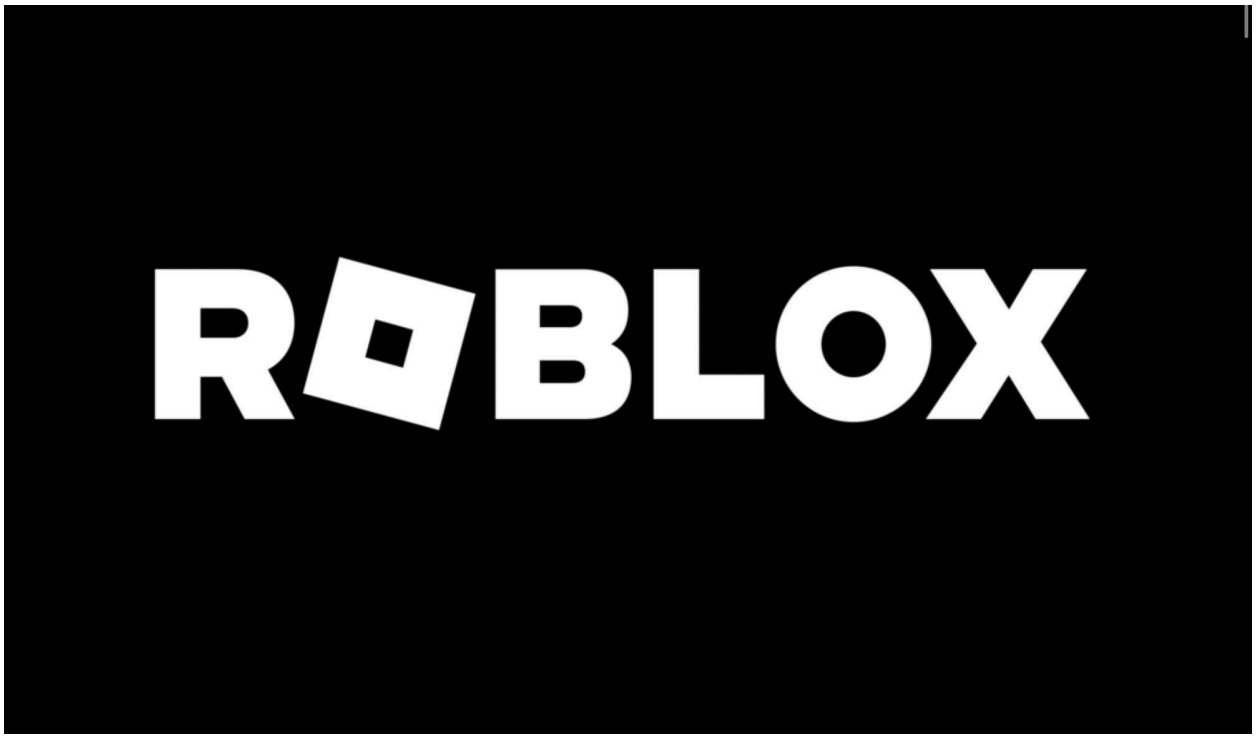
Roblox beginner guide





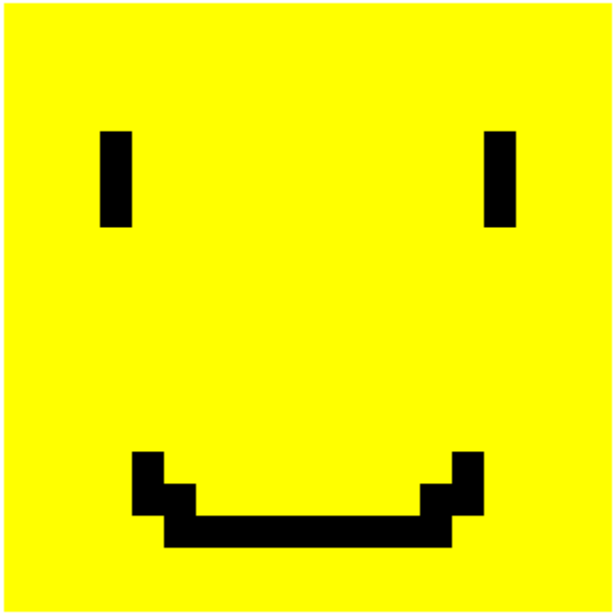
Chapter 1: How to play

Ok. So first let's look at this game review. It is down below.

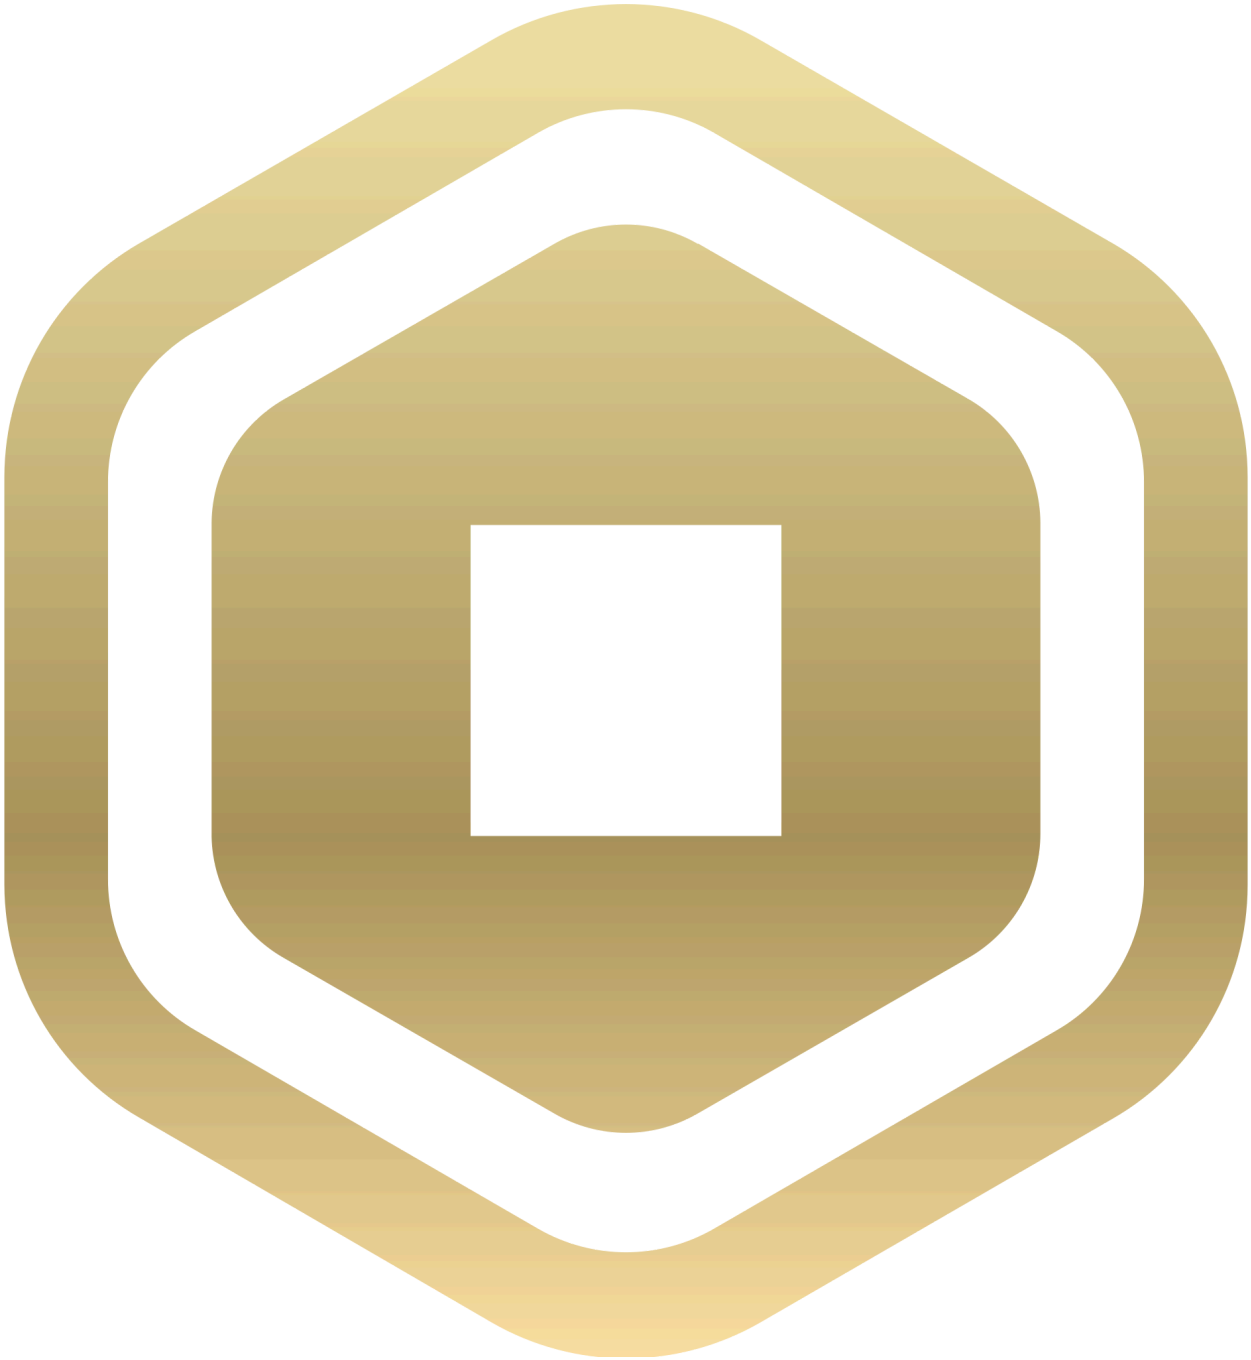
Game Review: Roblox

Roblox is a game where you can customize your character, create your own games, and play other people's games.This game is available on PC, Mac, iPhone, and Android. In this game, the controls are the keyboard and mouse. You can use the arrow keys to move your character in that direction, and press space to jump. You use the mouse to rotate the camera angle and click on things. These controls are effective because they are easy to use. Users can add sound effects to their game to make it more interesting, but they don't have to. The graphics are very clear and they include shadows and dynamic lighting. The balance between hard and easy depends on how the user built their game. Making a game is pretty challenging, though. I would give this game a 9 out of 10 stars, because the game is fun, but can sometimes be buggy.

There will be a customizing station. First you will start out with boring clothes.

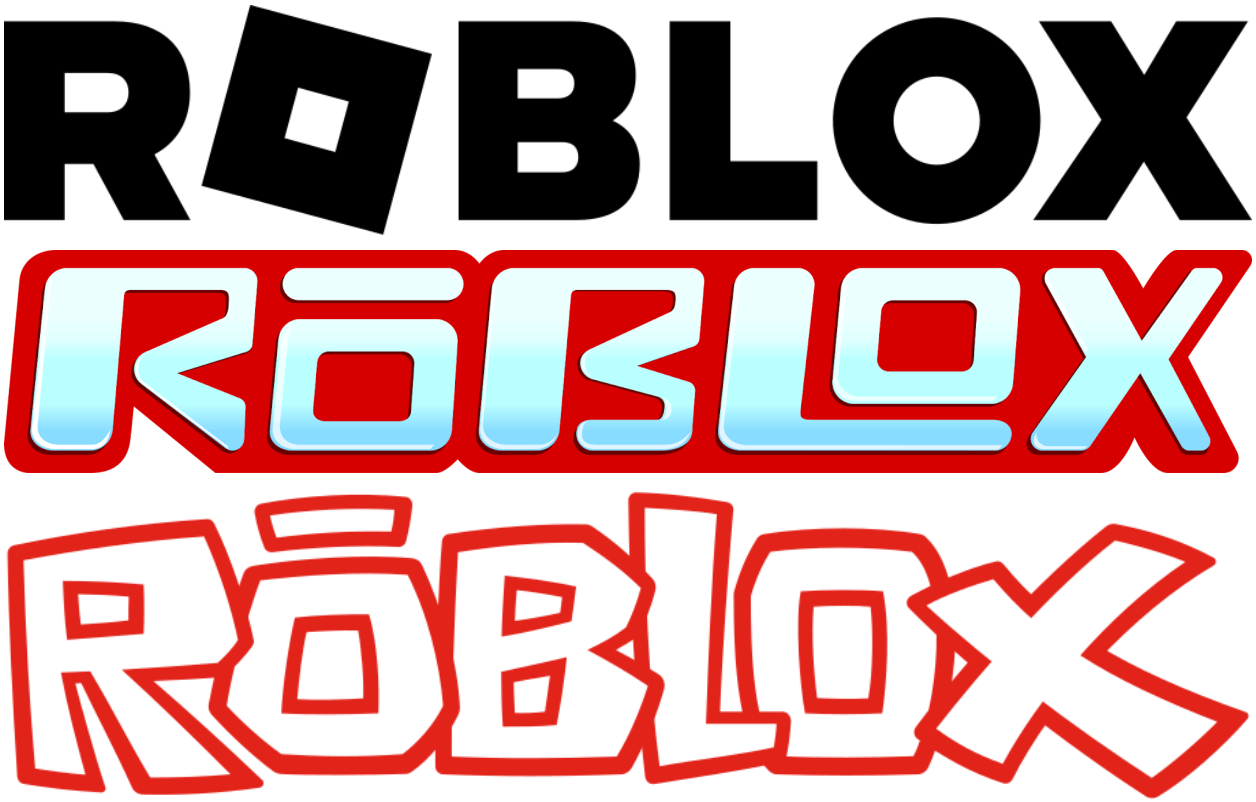


And then if you want you can buy robux. But it cost real money. We will talk about that later

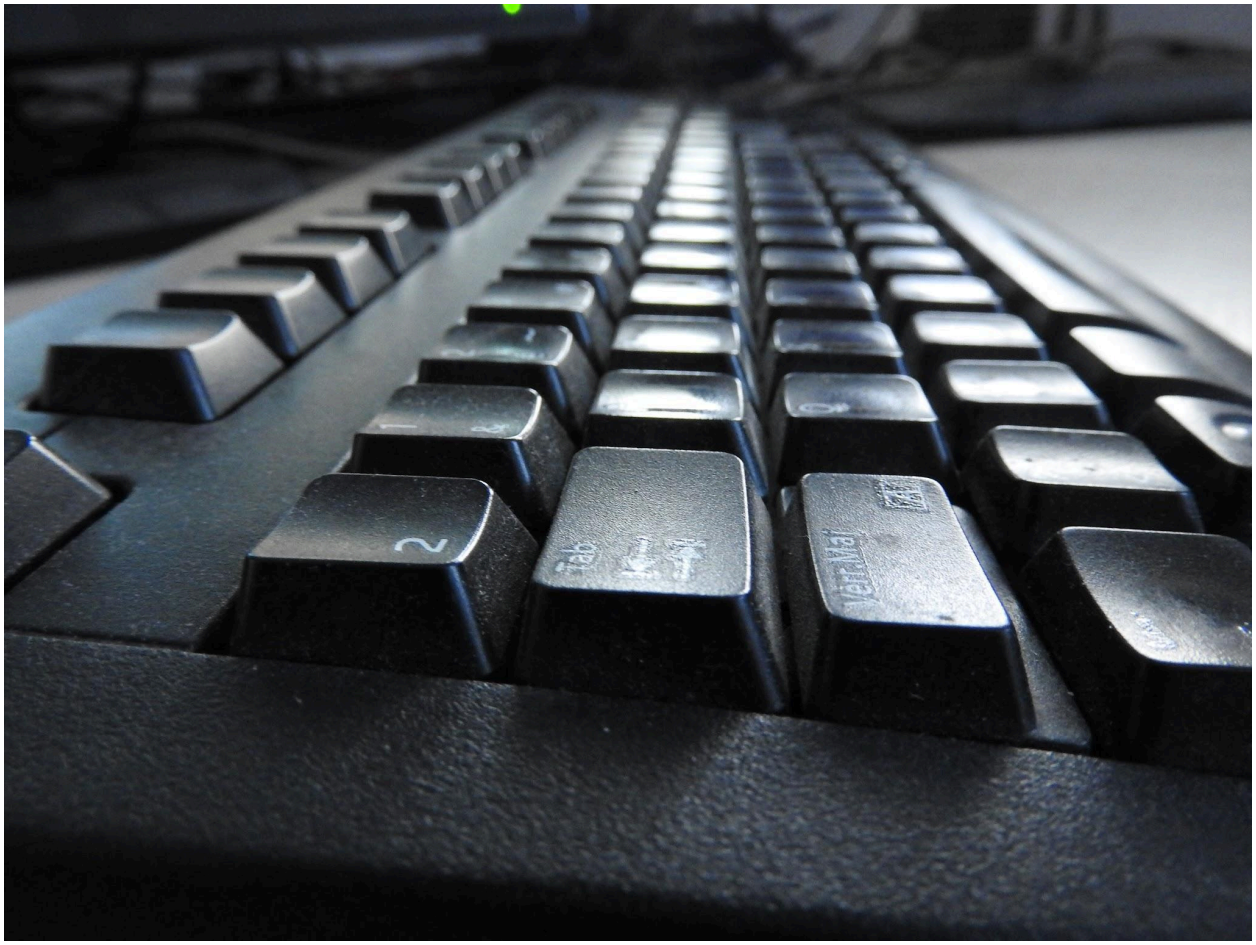


Now let's find out how to do stuff. Like walking and jumping in roblox. On mobile first.

For walking and jumping on roblox there will be a jump button and a joystick. But you can also walk with click to walk. You can change that in the settings.



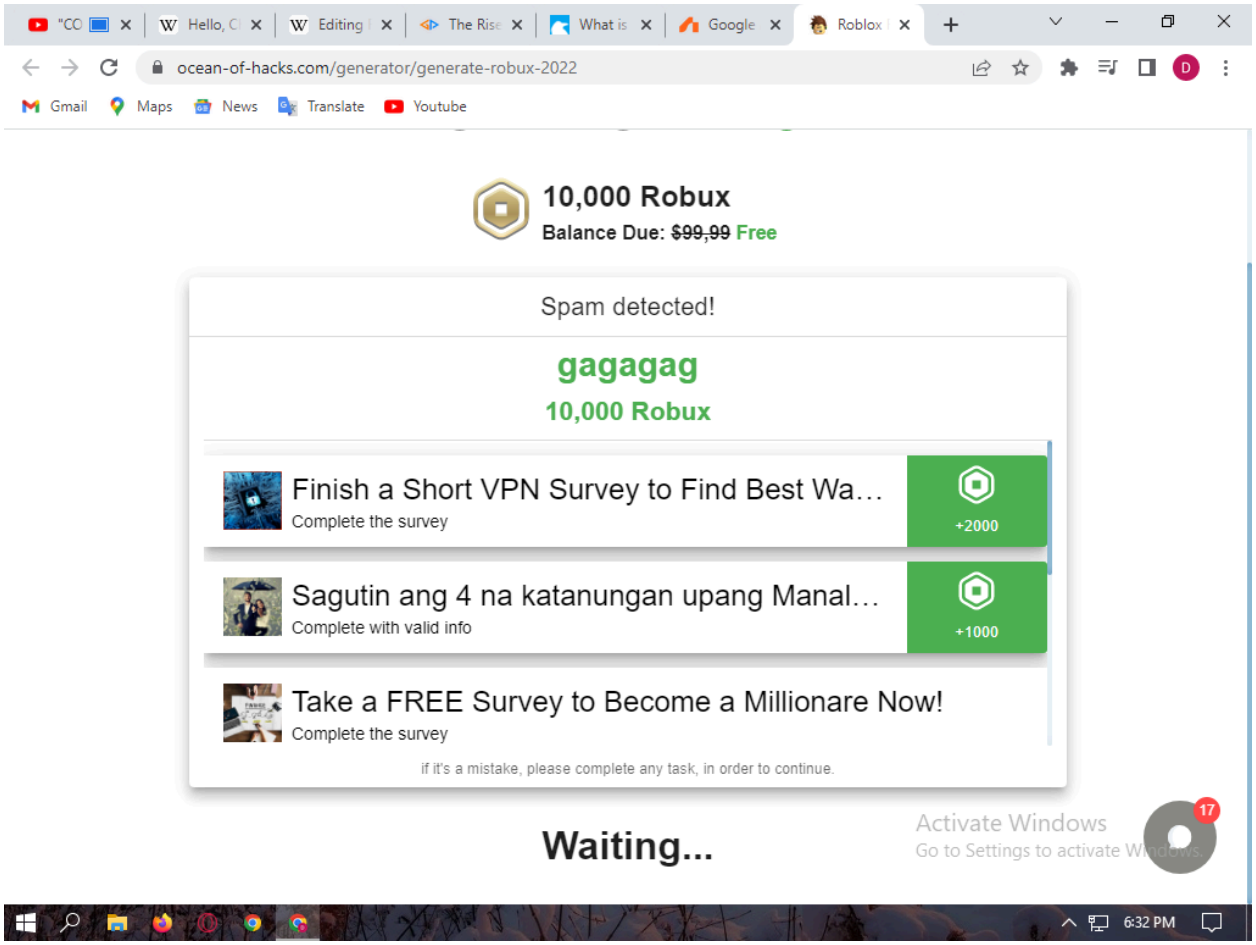
Now for the pc. For walking you press wsad. W goes forward. S goes backwards. D goes right. And finally. A goes left. To jump press the spacebar



Chapter 2: Robux

Now we will work on robux. For robux.. Sadly it cost real money. But here's what you can buy: You can buy clothes and gamepasses. For example you wanted a strawberry shirt. You would need robux.

You can buy robux in the robux store. You can buy 80 robux for 99 cents. Or you can buy 100k for about 199 dollars and 99 cents or so.



Don't fall for scams.

You can also buy robux gift cards! That's a way to get robux too!

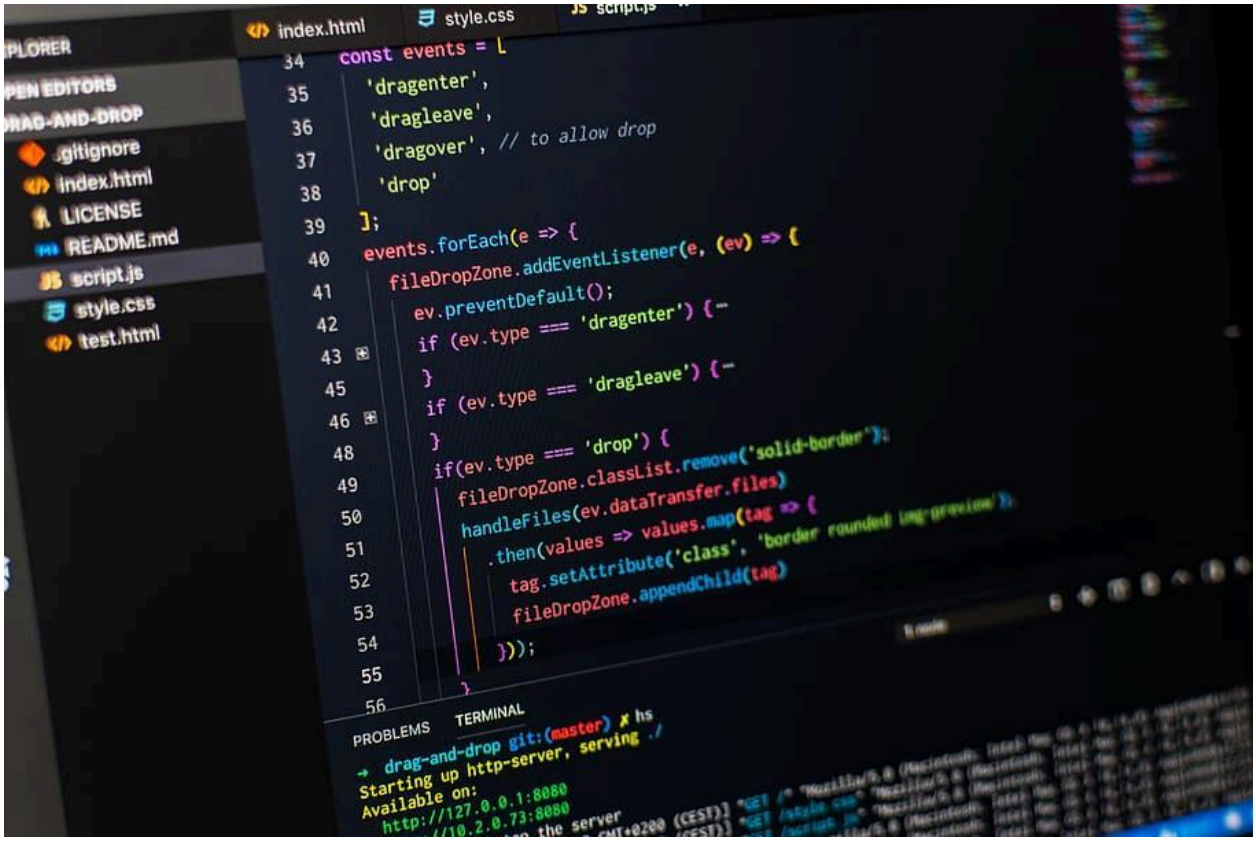
Robux cards do not really look like this. That is just an example.

Chapter 3: Making roblox games

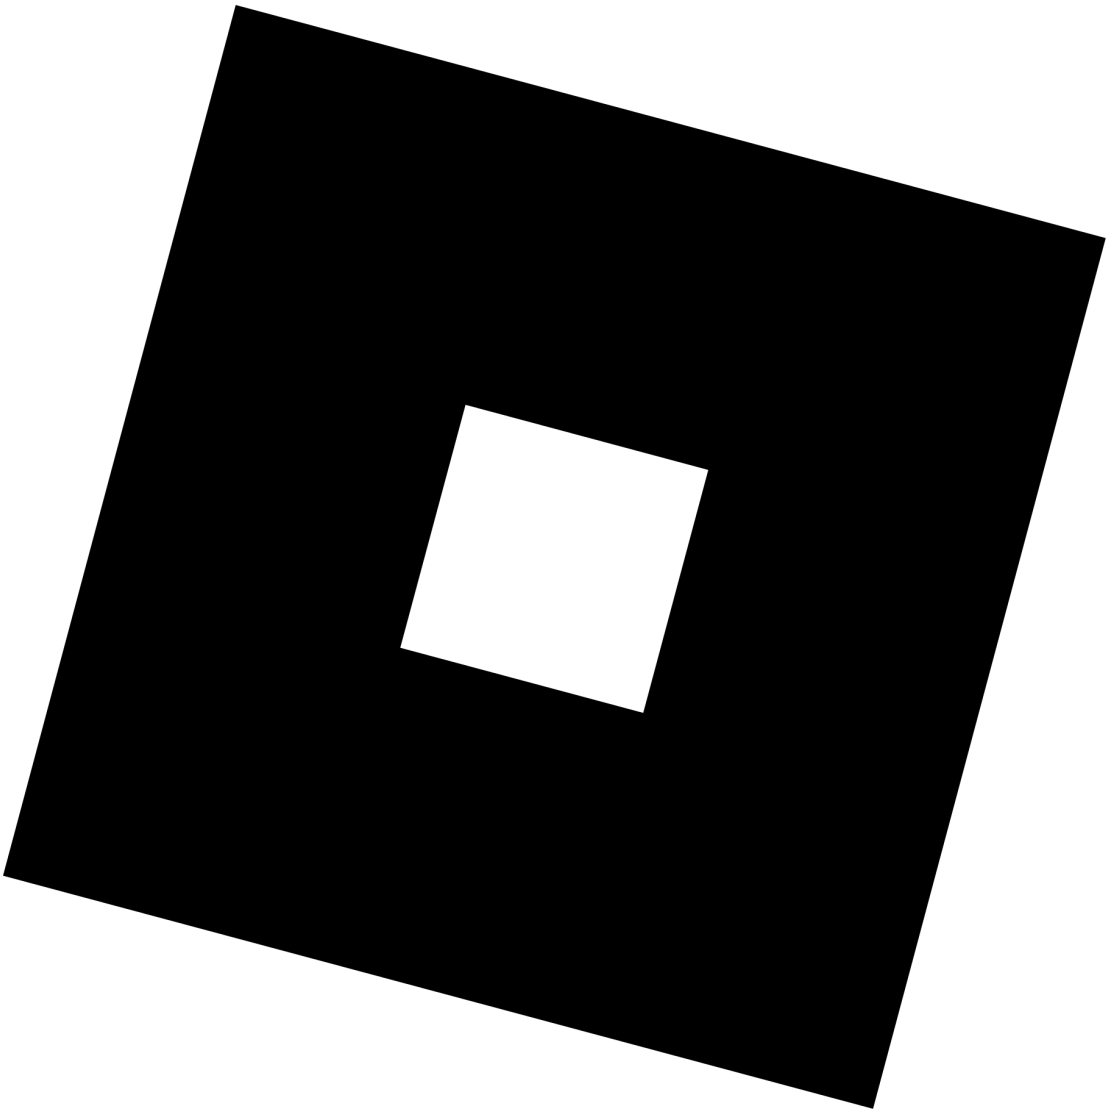
To make roblox games. You need roblox studio!

If you want to make a play button you have to script! If you open explorer there will be a screen GUI. your play button should be in there. Press the plus and search local script. Then press the local script!



Chapter 4: Adding friends

To add friends there should be a friends list at the top of your screen!



When adding friends you must be careful. The person you add might be a scammer!
